問1. 下記の英文を和文に訳しなさい。但し、()内と出典は翻訳不要。

Around the mid-eighteenth century, patterns disappeared from the torso portion altogether and *kosode* patterned below the waist only became fashionable. It is thought that this phenomenon was in part brought about by an increase in the width of the *obi* (sash) worn at the waist, but in the latter half of the eighteenth century, patterns descended even further down the skirts of townswomen's *kosode*, sparking a trend for patterns concentrated around the hems of the garment. These types of designs were called *suso moyō* (patterned hem) and *tsuma moyō* (patterned central front panel).
